Approximately five years, the graduate faculty in Human Development and Family Studies (HDFS) voted to change the name of the program from HDFS to *Developmental Science* for two reasons: 1) this name aligns with current trends in the field of developmental science, and 2) this name distinguishes us from the other graduate programs in HDFS. Although the name has been changed internally, it was recently brought to our attention that we had not changed it in the URI catalog. We request the name be officially changed from Master of Science Specializing in Human Development and Family Studies to Master of Science in Developmental Science.

At the same time, the graduate faculty in the Marriage and Family Therapy Program of HDF voted to change the name of their program to *Couple and Family Therapy*. This name aligns with trends in the field, and reflects a more inclusive and diverse application of relationship counselling. Although the name has been changed internally, it has not been changed in the URI catalog. We request the name be officially changed from Master of Science Specializing in *Marriage and Family Therapy* to Master of Science in *Couple and Family Therapy*.
